

Notation		
PrimaryKey	binary	
Unique	binary	
Foreign Key	integer(32)	
Allow Null	integer(32)	

User		
User Table		
UserID	integer(32)	
FirstName	varchar(50)	
LastName	varchar(50)	
UserTypeID	integer(32)	
Password	varchar(100)	
Email	varchar(100)	
MobileNumber	varchar(50)	
BirthDate	date(64)	
IsActive	binary	

Block		
BlockID	binary	
BlockUserID	integer(32)	

Address		
Address collect from user in this table.		
AddressID	integer(32)	
StreetName	varchar(500)	
HouseNumber	varchar(100)	
CityID	integer(32)	
PostalCode	integer(32)	
UserID	integer(32)	
UsserTypeID	integer(32)	
PhoneNumber	varchar(20)	

Favourite		
FavouriteID	integer(32)	
FavouriteName	varchar(32)	
UserID	integer(32)	
ServiceProviderID	integer(32)	

UserType		
Like Coustomer, Service Provider, Admin		
UserTypeID	integer(32)	
UserType	varchar(50)	

Service		
For service history show to user side and service provider side.		
ServiceID	integer(32)	
UserID	integer(32)	
ServiceDate	date(64)	
ServiceTime	time(64)	
Payment	integer(64)	
Distance	integer(64)	
StartTime	time	
TotalTime	time	
AddressID	integer(32)	
HaveAppartment	integer(32)	
IsAccept	integer(32)	
IsCompleted	integer(32)	
ServiceProviderID	integer(32)	

Cancel Service		
CancelServiceID	integer(32)	
CancelServiceComment	varchar(1000)	
ServiceID	integer(32)	

State		
StateID	integer(32)	
StateName	varchar(64)	

City		
City table reference for service provider and admin side.		
CityID	integer(32)	
CityName	varchar(255)	
StateID	integer(32)	

CityCheckPostal		
check for service availability.		
PostalID	integer(32)	
CityID	integer(32)	
CityArea	varchar(50)	
PostalCode	varchar(50)	

Rating		
RatingID	integer(32)	
ServiceID	integer(32)	
UserID	integer(32)	
ServiceProviderID	integer(32)	
OnTime	integer(32)	
Friendly	integer(32)	
QualityofService	integer(32)	
Feedback	varchar(255)	

Gender		
GenderID	integer(32)	
GenderName	varchar(32)	

Avtar		
AvtarID	integer(32)	
Avtar	varchar(500)	

ServiceProvider		
ServiceProviderID	integer(32)	
UserID	integer(32)	
GenderID	integer(32)	
AvlarID	integer(32)	
AddressID	integer(32)	
TaxNo	varchar(50)	
IsWorkwithPet	binary	

Extra Services		
ExtraServiceID	integer(32)	
ServiceID	integer(32)	
ExtraServiceTypeID	integer(32)	

Extra Service Type		
for all extra service price and its id		
ExtraServiceTypeID	integer(32)	
ExtraServiceName	varchar(100)
